

*Unit 01 - Practice 09: Questions about OEM licenses video.

Task 09: Questions about the OEM Licensing video

After seeing the video that appears in Theory and that I also put here: Windows and Office - Are the € 10 licenses legal?

Answers *with your words* to the following questions.

Question 1

How much is Windows 10 Pro worth on the Microsoft website according to the video?

In the video it says it costs 260 €.

Question 2

What is a RETAIL license?

These are the standard Windows consumer licenses. This type of license allows the user to install Windows on any computer and even switch to another computer, but the same license can only be installed on a single computer at any given time.

Question 3

According to the video, what is the difference initially between RETAIL and OEM?
Before analyzing them.

The difference is that the OEM license is for manufacturers and the Retail license is for normal users.

Question 4

What commands delete the key set in a Windows 10?

Enter the command Slmgr -dli at the command prompt.

Question 5

What is the way to go **Activate Windows**?

To activate the windows you must enter the password.

Question 6

If during the installation we have not put the password, can we put it later?

It would be possible to put it later.

Question 7

What are RETAIL licenses linked to? Will we be able to activate the licenses on several computers, if we have a RETAIL license?

- **These licenses are linked to the cloud (to the servers).**
- **We can have the license on many computers, but it can only be activated on one.**

Question 8

Do RETAIL licenses have Technical Support?

Retail licenses have technical support at the time of installation on the equipment.

Question 9

What is a Volume license? What do cracks use it for? How do servers work? *FAKE?*

- **Retail licenses have technical support at the time of installation on the equipment.**
- **Basically because they can connect our computer through various operating systems.**

Question 10

What 3 alternatives can the cracks run from Windows 8.1?

1º Select the Start button, type PC Settings and select PC Settings from the list of results.

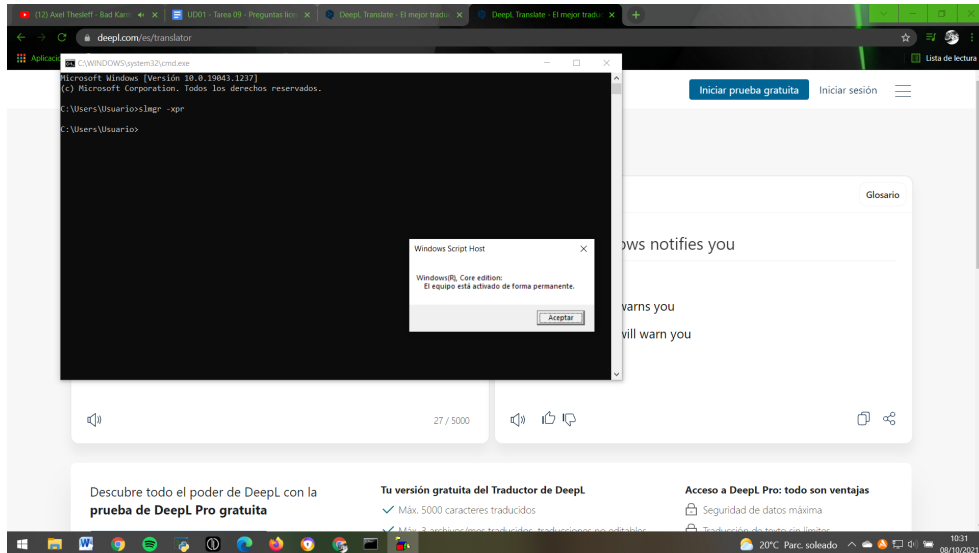

2º Choose Activate Windows.

3º Enter your Windows 8.1 product key, select Next and follow the instructions.

Question 11

How often is the license checked again? What system does the cracks run?

- **Normally windows warns you when it is about to expire.**

Question 12

What dangers do cracks contain? List the threats that are explained in the video.

The main danger is that when you agree to terms you may agree to be hacked into your computer.

Question 13

Is it important to be up-to-date and why?

In a way yes, because they could be bugs fixed or new mechanics introduced for better support.

Question 14

What is the price of an OEM license? What do the acronyms mean?

It can vary, they usually have a very low value, between € 15 to € 12. Original Equipment Manufacturer

Question 15

What is the main difference between an OEM key and RETAIL?

The difference is that the OEM license is for manufacturers and the Retail license is for normal users.

Question 16

What component is tied to the license?

If it is an OEM, it is linked to the computer where it is activated.

Question 17

Can the key be transferred between your own PCs? Where is it indicated whether or not it can be done?

If it is a Retail yes, but it cannot be linked to two computers at the same time and if it is an OEM it cannot, it is only for one use.

Question 18

Can they be updated between different versions if we acquire the licenses?

If it is an OEM, no, since it is only linked once on your computer once it is installed and if it is a Retail it can be updated as long as your computer has the necessary and acceptable characteristics for its update.

Question 19

Is it legal to activate a Windows with one of the OEM keys? Describes the phone call shown in the video.

If it is legal, only that it contains other types of conditions, such as that it can only be of one use and that it does not receive updates, but they always maintain a more acceptable price for everyone.

Question 20

How does the key store you talk about all the time in the video obtain the keys it sells?

Through an external Chinese company, which belongs to a larger company where they sell product keys that they buy from Microsoft.
